

FREE RC FLIGHT INSTRUCTION

Proper attitude is crucial for safe flight

The Fort Worth Thunderbirds offer free training for those individuals that are interested in the hobby. No equipment necessary, airplane and radio equipment provided by the Fort Worth Thunderbirds club.

During the year (Daylight Savings Time) you can show up at our flying field between 4:00pm – 6:00pm on Thursday evenings and an instructor should be available. We offer training until dusk or as long there are safe flying conditions. Other training times can be established on an individual basis by contacting an instructor and arranging a time to meet.

Although rare, it is possible on occasion that due to business or personal reasons no instructor would be available. Feel free to contact any of the instructors listed below if you have questions regarding training availability.

Our flying field is located on the south end of Lake Benbrook inside Mustang Park. Visit our website for directions.
